

Cardinality:
1 SCHEDULE is made for 1 MATCH.
1 MATCH only has 1 SCHEDULE.
A MATCH can have multiple FIGHTERS.
A FIGHTER can play in multiple MATCHES.
A MATCH has one score sheet that displays the score and champion of only that match.
A SCORE_SHEET only has the information stored for one MATCH.

(Min, Max):
A MATCH can be created for the future without knowing who will play in it and when the plays are known there can be multiple of them.
A FIGHTER can be new and have yet to play in a MATCH, and a FIGHTER could play in multiple MATCHES over time.
A MATCH can only have one SCHEDULE.
A SCHEDULE can also only have one MATCH.
A MATCH can only have one SCORE_SHEET.
A SCORE_SHEET can only have information from one MATCH.

Key Pairs:
MatchName.MATCH = MatchName.SCORE_SHEET
MatchName.SCHEDULE = MatchName.MATCH
PlayerID.FIGHTER = Player1ID.MATCH
PlayerID.FIGHTER = Player2ID.MATCH

Weak Entity:
CHAMPIONS is a weak entity because I don't allow a CHAMPION into the database until a MATCH finishes.
